What is Odoo/OpenERP?

Odoo is not just a standard management platform. It encompasses sales and project management in a single tool, and enriches them with a variety of ERP, POS, and E-commerce functions to deliver a universal solution that can help all businesses manage all types of operations. Further more, the system goes a step ahead integrating every sales channel you can think of, which combined with its powerful inventory management, makes for the best business management solution to be found on the market these days.

Why choose Odoo ERP?

Odoo's enterprise management system (ERP) provides solutions for all your day-to-day business operations from accounting, finance, production and inventory control to e-commerce, customer relationship (CRM) and material requirements planning (MRP).All in one system.With simple, transparent language and low maintenance cost, the software operates with Open Source technology that allows the solution to adapt to the needs of your company.
